REPORT
OF THE
SCHOOL BOARD
OF THE
SCHOOL DISTRICT

Town of Andover, N. H.,

FOR THE YEAR ENDING

—❖—February 28, 1893.—❖—

School District Officers.

Moderator,

Henry A. Weymouth.

Clerk,

Nathan Woodbury.

School Board,

Henry L. Emery, term expires 1893.

Lyman Clark, " 1894.

Almond H. Smith, " 1895.

Organization,

Henry L. Emery, Chairman and Treasurer.

Almond H. Smith, Secretary.

School Report.

The School Board of the Andover School District make the following report:—

The good condition of the schools depends upon effective teaching and a proper allowance of time for the work. At least thirty weeks in school should be given to the children, if possible, each year. During the past year, three terms of school have been arranged for as many schools as practicable; a Spring term of ten weeks, a Fall term of eight weeks, a Fall and Winter term of ten weeks, in all twenty-eight weeks, except in case of special reason for closing the term with less time. This is an increase upon the time of previous years. We recommend that this increased time be maintained and further increase secured as soon as practicable.

The Board have found difficulty in engaging good, competent, efficient teachers for the compensation hitherto paid in most of the schools of the town. The further improvement of the schools should be sought by increasing the rate paid at least in some of the schools, thus offering more encouragement to experienced teachers. Five sets of charts were purchased two years ago, with a view to giving each school the use of a set during half of each term. While the schools have been much helped by these charts, the number is insufficient. The supply should be made complete by the purchase of sufficient number for all the schools.

For the more effective teaching of business methods, the School Board have adopted Shaw's Practice Book in Business Forms and Elementary Book Keeping, for use in the schools of the town.

Repairs.

New adjustable seats have been put into the Taunton Hill school house. They were made at Basic City, Virginia, and have given much satisfaction. All the school houses, except Tucker Mountain have been supplied with satisfactory seating arrangements. During the coming year several of the school houses should be painted. Book cases should be furnished to all schools unprovided. The school house lots in several cases need to be put in better order. The underpinning needs to be properly banked, and various minor repairs made.

Historic Commemoration.

The celebration of Columbus Day, commemorating the four hundredth anniversary of the discovery of America, furnished the occasion for supplying the schools of Andover, East Andover, Dyer's Crossing and Taunton Hill with flags. This was done by means of private gifts for which the thanks of the town are due. Public exercises were held October 21, at Andover, East Andover and in several of the neighborhood school houses of the town. The occasion will, no doubt, be remembered when the little children who were present are themselves old men and women.

Recommendations.

The School Board recommend that the sum of \$500 be raised and appropriated for the support of schools, and that \$200 be raised for the repair of school houses, unexpended balances to be applied for the schools.

Reference is made to the Treasurer's Report and to the statistical table which are appended to this report.

Library Report,

The Library Trustees congratulate the people of the town upon the establishment of a free public library, in two sections, one at Andover and one at East Andover, with provision for such distributing agencies as may be found convenient for the people of the different sections or neighborhoods of the town. The state of New Hampshire has, through the state library commissioners, donated one hundred dollars worth of books, which have been added to those purchased with the appropriation of the town and the books of the Proctor Memorial Association, ninety-two volumes, which were loaned to the Town Library by this Association. The books of the Proctor Academy Library are also free for public use.

Sixty volumes were donated by Rev. Augustus Woodbury of Providence, R. I. William P. Dane, of New York, gave to the Memorial Library Association seven volumes relative to the early history of our country. Other donations have been received from Henry L. Emery, Arthur R. Kimball, State Librarian, and Mrs. J. Burton Cilley. The library trustees invite donations in memory of inhabitants of the town or others, as the donors may prefer. It is believed that this feature of the Library will be the means of preserving the memory of some of those who have been residents of the town and add to the interest which the people will take in the library as an institution. The library may thus become a means of preserving the town history. The total number of bound volumes available for free circulation is as follows:—Andover Library, 339 volumes; Proctor Academy Library, 1317 volumes; total, 1615 volumes, with many unbound volumes.

Division of the Library.

The state library commissioners are of the opinion that the law offering aid from the state to towns establishing free public libraries contemplated but one such library in each town. But, upon petition of the Board of Library Trustees of Andover, an order has been given recognizing the division of the Andover library into two sections, one at Andover and one at East Andover, both of which are to be regarded as sections of one library. The state board approves of the appointment of such distributing agents as may be needed for the convenience of the people and has formulated rules for the government of such agents and agencies.

Catalogue.

A card catalogue and accession book, giving an account of every book received for both the Town and Proctor Academy libraries, has been prepared by Mrs. Carrie E. Morton, with voluntary assistance from ladies of the town. Thanks are due for much gratuitous service in connection with the work.

Circulation.

The increasing use of the library by readers has been very gratifying to the trustees. This use is already an important aid to the educational interests of the town. The librarian reports that for the year ending Feb. 1 1893, the issues of books at Andover have been eight hundred and fifty. From the time of the opening of the Town Library to Feb. 1, the circulation has been three hundred and eleven issues at East Andover and sixteen at West Andover, the total circulation being eleven hundred and seventy-seven. The arrangements for circulation at West Andover were made at a later date than the opening of the other places which may explain the small number books taken.

Recommendations.

The Library Trustees recommend that the sum of \$100 be raised for the purchase of books during the ensuing year and that the incidental expenses of the library be paid in the same manner as other incidental town expenses. The appropriation of the state was granted upon condition that, while the valuation of the town shall remain the same as it is now, \$25 be raised annually for the library. The library trustees confidentially hope that the town will not limit its liberality to the minimum sum required by the laws; and they invite donations of good books from citizens or friends of the town. If given in memory of some resident of the town a brief statement of the leading facts of the life commemorated, dates of birth, marriage, death, public services, or important events, would add much to the value of the gift. Such statements may be written or printed and placed in the position of a fly leaf.
